

POS Systems for Christian Bookstores

Praiz POS for Christian Bookstores

- **Buy, Sell, Trade and Rent**

Praiz® is a complete retail solution for stores handling new and used products. Ring up sales, trade-ins, and rental items on the same invoice!

- **Interface with Industry Databases**

Save a great amount of data entry time by pulling information from Spring Arbor's web based databases or Bowker's® Books in Print® ON DISC, STL and others. The databases populate common fields such as title, publisher, and ISBN number.

- **Power Over your Inventory**

Know your exact inventory levels. Automatically fill out purchase orders for low stock items. Keep your stock levels of new and used items at the level YOU want!

- **Improve Customer Care**

Speed up your transactions. Suggest used product instead of new in order to increase your profit margins. Have a quick, accurate lookup to see if an item is in stock. Make your customers feel as though they've gotten the highest quality of service possible!

- **Keep Track of your Customers**

Your current customers are your most likely future customers. Keep a mailing list of them. Keep accounts for a credit line, or for store credit from trade-ins. Make occasional mailings of special offers to bring them back to your store.

- **Maintain Detailed Reporting**

Keep detailed reports including inventory and sales, rental reports, accounts receivable, customer history, gift cards, top sellers, employee hours and wages, etc.

The screenshot displays the Praiz POS software interface. At the top, there's a menu bar with options: File, View, Actions, Tools, Reports, Invoice, Help. Below the menu, there's a 'Scan Item' section with fields for 'Item Number', 'Quantity' (set to 1), and 'Lookup (F10)'. To the right, there's a 'Used <<<' section with 'Used' and 'Condition' checkboxes, and a 'Trade-In' section with 'Store Credit' and 'Cash' radio buttons. Below this, there's a 'Customer <<<' section with 'Selected Customer: 101', 'Cash Customer', 'Balance: \$ 0.00', and 'Discount: A (0.00%)'. There are also buttons for 'Details ...', 'Quick Search', 'Lookup', 'Special Orders', and 'Scan Discount Card'. A 'Rental >>>' button is also present. The main part of the screen is an 'Invoice Grid (Ctrl+G) SELECTED' table with columns: Line, Item_Number, Item_Name, Desc, Quan, Price, Ext_Price, Discount, Used, TradeIn, and Tax_Exempt. The table contains four rows of items, with the fourth row (Line 4) highlighted. Below the table, there's an 'Invoice <<<' section with fields for '# Items' (4), 'Tax Exempt' (checkbox), 'Discount (Ctrl+D)' (0.00 %), 'Apply Promotion Prices' (checkbox), 'Put On-Hold', 'All Trade-ins Store Credit', 'Recall On-Hold', and 'All Trade-ins Cash'. There's also a 'Selected Item <<<' section with '0886978543721', 'Jonny Diaz', and '0 New, 0 Used'. Below this, there are buttons for 'Change Price (Ctrl+I)', 'Change Discount (Ctrl+L)', 'Change Quantity (Ctrl+Q)', and 'More (Ctrl+M)'. To the right, there's a summary section with 'Subtotal 50.96', 'Tax 0.00', and 'Total \$ 50.96'. At the bottom, there are 'Void' and 'End Transaction' buttons. The footer shows 'Praiz', 'Cashier ID 01', '6/28/2011', and '9:02:12 AM'.

Line	Item_Number	Item_Name	Desc	Quan	Price	Ext_Price	Discount	Used	TradeIn	Tax_Exempt
1	9780310293262	Made to Crave: Satisfying Your Deepest Desi	TerKeurst, Lysa	1	14.99	14.99	0.00%	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2	9780849946127	Live to Make a Difference: An Inspiring Call t	Lucado, Max	1	2.99	2.99	0.00%	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3	9780781444996	Action Bible: Gods Redemptive Story		1	24.99	24.99	0.00%	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4	0886978543721	Jonny Diaz		1	7.99	7.99	0.00%	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

As shown above, you can do multiple transaction types on a single transaction. Sell new and used, take trade-ins, sell pre-orders, and rent, all at once!

Used <<<

Used	Condition	Trade-In	<input checked="" type="radio"/> Store Credit
<input type="checkbox"/>	<input type="text"/>	<input type="checkbox"/>	<input type="radio"/> Cash

Praiz® is built from the ground up to allow for used products and trade-ins; simply check the boxes next to the item number field to use one of these transaction options.

Used Info

Used In Stock <input type="text" value="1"/>	Trade In Price 1 <input type="text" value="\$ 2.50"/>
Used Cost <input type="text" value="\$ 2.50"/>	Trade In Price 2 <input type="text" value="\$ 0.00"/>
Used Max <input type="text" value="3"/>	Trade In Price 1 (Cash) <input type="text" value="\$ 0.00"/>
Used Price 1 <input type="text" value="\$ 5.00"/>	Trade In Price 2 (Cash) <input type="text" value="\$ 0.00"/>
Used Price 2 <input type="text" value="\$ 0.00"/>	

No need for setting up separate departments; Praiz® will keep used pricing and stock levels on an item separately. Set multiple trade-in values for complete or incomplete products and for store credit versus cash!

Used Item Available

This item is available Used for \$5.00.

Does the customer wish to purchase Used rather than New?

Condition:

Have the system aid you in selling your highest margin items – the POS system can alert you if you are selling a new copy of something you have in stock used.

EPOSCore

Accepting this trade-in will exceed the maximum used quantity you have set for this item.

The Used in stock quantity is: 1

The Used maximum quantity is: 1

Do you still want to accept this trade-in?

You may also have the system alert you to when you are getting too many copies of a book in. This will prevent you from getting dozens of copies of something you don't want in stock, wasting money and space.

Invoice <<<

# Items <input type="text" value="0"/>	Tax Exempt <input type="checkbox"/>	Discount (Ctrl+D) <input type="text" value="0.00 %"/>	Apply Promotion Prices <input type="checkbox"/>	Put On-Hold <input type="checkbox"/>	All Trade-ins Store Credit
				Recall On-Hold	All Trade-ins Cash

Easily switch back and forth between giving store credit and giving cash with these invoice controls. You may also hold multiple transactions, allowing customers to see the total of their trade-in before doing their shopping.

Easily search your inventory through multiple query options. Narrow or widen your search terms to find exactly what you're looking for!

Set an item up for Pre-Ordering – you can set a date where pre-orders can start, a minimum deposit, and a street date that enforces when the item may be sold!

Automatically prompts for a pre-order when you attempt to sell an item set as pre-orders. The system enforces assigning that pre-order to a customer.

View preorders on the books. Filter by customer, or by what's available in stock. Add to the invoice to fill it, or cancel and refund the customer.

Promotions allow you to offer automatic discounting based on the day of week, a date range, discount cards, or just continuously! Whether on specific items or by departments or categories, promotions offer a powerful and flexible discounting tool.
